PII: S0960-0760(00)00159-X

SUBJECT INDEX

Aldosterone
alteration of the phospholipid composition of rat colonocytes by, 11
role of rat adrenal antioxidant defense systems in the, turn-off phenomenon, 71
17ß-Aminoestrogen(s)
in vivo estrogen bioactivities and in vitro estrogen receptor binding and transcriptional activities of anticoagulant synthetic, 59
cAMP protein kinases
role of, in the control of steroid secretion, cyclic nucleotide production, granulosa cell proliferation and preimplantation embryo development in rabbits, 123
Androgen(s)
inhibition of growth and induction of apoptosis by, of a variant of LNCaP cell line, 237
receptor(s)
binding profiles of two distinct nuclear, in Atlantic croaker, 93
Antiestrogen(s)
response of estrogen receptor containing tumour cells to pure, and the calmodulin inhibitor, calmidzolium chloride, 29
Antioxidant
role of rat adrenal, defense systems in the aldosterone turn-off phenomenon, 71
Apoptosis
inhibition of growth and induction of, by androgens of a variant of LNCaP cell line, 237
Aromatase
multiple isoforms of porcine, are encoded by three distinct genes, 49

Blood pressure
steroid sulfatase inhibitor alters, and steroid profiles in hypertensive rats, 113
tissue steroid sulfatase levels, testosterone and, 251
Brain
subunits of neurosteroid sulfatase from, of bovine, 135
Breast cancer
elevates steroid sulfatase expression in breast cancers, 141
Breast cancer cells
regulation of *fas* ligand expression in, by estrogen, 185
Breast epithelial cells
progesterone effect on cell growth, ultrastructural aspect and estradiol receptors of normal human, in culture, 171

Chrondrocyte phenotypic expression
membrane effects of 17β-estradiol on, 211
c-*myc*
glucocorticoid mediated transcriptional repression of, in apoptotic human leukemic CEM cells, 195
Colonocytes
aldosterone alters the phospholipid composition of, in rat, 11
Corticosterone
altered, status impairs steroidogenesis in the granulosa and thecal cells of Wistar rats, 153
Cystic breast disease
effect of natural 'micronized' progesterone on the chorionic gonadotropin concentrations in cyst fluids of women with gross, 67
Cytochrome P450
absence of correlation between in situ expression of, 17α-hydroxylase/lyase and 3β-hydroxysteroid dehydrogenase/Δ5–4 isomerase mRNA and steroidogenesis during pubertal development in the rat testis, 19

1,25-Dihydroxyvitamin D_3
synergistic anticancer activity of, and immune cytokines, 105

Estradiol
membrane effects of 17β-, on chondrocyte phenotypic expression, 211
Estrogen(s)
receptor(s)
in vivo estrogen bioactivities and in vitro, binding and transcriptional activities of anticoagulant synthetic 17β-aminoestrogens, 59
progesterone effect on cell growth, ultrastructural aspect and, of normal human breast epithelial cells in culture, 171
response of, containing tumour cells to pure antiestrogens and the calmodulin inhibitor, calmidzolium chloride, 29
Estrogen sulfotransferase
quercetin and resveratrol reduce, activity in normal human mammary epithelial cells, 265
Estrone sulfate
stimulation of MCF-7 breast cancer cell proliferation by, 225

fas ligand expression
regulation of, in breast cancer cells by estrogen, 185

Genes
multiple isoforms of porcine aromatase are encoded by three distinct, 49
Glucocorticoid(s)
mediated transcriptional repression of c-*myc* in apoptotic human leukemic CEM cells, 195
Granulosa and thecal cells
altered corticosterone status impairs steroidogenesis in, of Wistar rats, 153

3β-Hydroxysteroid dehydrogenase-isomerase
kinetic properties of microsomal, from testis of *Bufo arenarum* H, 257
3β/17β-Hydroxysteroid dehydrogenase gene
steroid-inducible transcription of the, *in Comamonas testosteroni*, 147
3β-Hydroxysteroid dehydrogenase type 1
activity and expression in cultured rat granulosa cells, 203
Hypertensive rats
steroid sulfatase inhibitor alters blood pressure and steroid profiles in, 113
Human mammary epithelial cells
quercetin and resveratrol potently reduce estrogen sulfatase activity in normal, 265

Immune cytokines
synergistic anticancer activity of 1,25-dihydroxyvitamin D_3 and, 105
Insulin Growth Factor-I (IGF-I)
role of, in the control of steroid secretion, cyclic nucleotide production, granulosa cell proliferation and preimplantation embryo development in rabbits, 123

Leukemic CEM cells
glucocorticoid mediated transcriptional repression of c-*myc* in apoptotic human, 195
LNCaP cell line
inhibition of growth and induction of apoptosis by androgens of a variant of, 237

MAP-kinase
role of, in the control of steroid secretion, cyclic nucleotide production, granulosa cell proliferation and preimplantation embryo development in rabbits, 123
MCF-7 breast cancer cells
stimulation of, proliferation by estrone sulfate and dehydroepiandrosterone sulfate, 225

Neurosteroid sulfatase
subunits of, from bovine brain, 135

Phytoestrogen(s)
ability of, to modulate the expression of estrogen sensitive genes in the rat uterus, 1
Progestagen Org 30659
excretion balance and metabolism of the, in healthy mostmenopausal women, 39

Progesterone
effect of natural 'micronized', on the chorionic gonadotropin concentrations in cyst fluids of women with gross cystic breast disease, 67
effect of, on cell growth, ultrastructural aspect and estradiol receptors of normal human breast epithelial cells in culture, 171
modulation of NADPH-diaphorase and glial fibrillary acidic protein by, in astrocytes from normal and injured rat spinal cord, 159

Receptor(s)
androgen(s)
binding profiles of two distinct nuclear, in atlantic croaker, 93
estogen(s)
in vivo estrogen bioactivities and in vitro, binding and transcriptional activities of anticoagulant synthetic 17ß-aminoestrogens, 59
progesterone effect on cell growth, ultrastructural aspect and, of normal human breast epithelial cells in culture, 171
response of, containing tumour cells to pure antiestrogens and the calmodulin inhibitor, calmidzolium chloride, 29

Spinal cord
modulation of NADPH-diaphorase and glial fibrillary acidic protein by progesterone in astrocytes from normal and injured, of rat, 159
Steroid sulfatase
levels in tissue, 251
Steroid sulfatase expression
elevation of, in breast cancers, 141
Steroid sulfatase inhibitor(s)
alteration of blood pressure and steroid profiles by, in hypertensive rats, 113
Sulfatase inhibitor(s)
inhibition by novel non-steroidal steroid, of the stimulation of MCF-7 breast cancer cell proliferation, 225

Tamoxifen
functional differences between estradiol and, in regulation of *fas* ligand expression by estrogen in breast cancer cells, 185
Testis
absence of correlation between in situ expression of cytochrome P450 17α-hydroxylase/lyase and 3β-hydroxysteroid dehydrogenase/Δ5–4 isomerase mRNA and steroidogenesis during pubertal development in the, of rat, 19
Testosterone
tissue steroid sulfatase levels, and blood pressure, 251

Xenoestrogen(s)
ability of, to modulate the expression of estrogen sensitive genes in the rat uterus, 1

We would like to express our deep thanks to the following persons for their kind collaboration in reviewing papers for this volume of **The Joumal of Steroid Biochemistry & Molecular Biology:**

BANIAHMAD A., Giessen, GERMANY
BRINKMANN A., Rotterdam, The NETHERLANDS
EVANS D.B., Basel, SWITZERLAND
KATZENELLENBOGEN J., Urbana, U.S.A.
LU Q., Baltimore, U.S.A.
LUU-THE V., Quebec, CANADA
MASON J.I., Edinburgh, Scotland, U.K.
McKAY L.L, Research Triangle Park, U.S.A.
PARIS J., MONACO
SCHWARZ S., Jena, GERMANY
SIMARD J., Quebec, CANADA
STEPHEN R.L., Washington, U.S.A
YLIKOMI T., Tampere, FINLAND
